

## Dryer Venting Kit with Rear Deflector

Enjoy cleaner, fresher air in your laundry

ULX104

### DESCRIPTION

Installing a dryer venting kit reduces drying time while decreasing your energy bills at the same time. Cleaner, drier air also helps to prevent mildew on your walls.

The clever through-the-wall design ensures more peace of mind, as you can keep your doors and windows closed while using your dryer.

The venting kit is designed to fit most standard sized outlets (100mm diameter).

Available at leading electrical retailers.

### TIPS/ FEATURES

- To avoid personal injury, use correct equipment and ask for assistance when moving and lifting appliances
- Includes a rear deflector which can be used on its own to direct air within the laundry
- Ducting outside the laundry gives peace of mind, as you can keep your doors and windows closed while using your dryer.

### SUITABLE FOR MOST BRANDS INCLUDING:

Electrolux  
Simpson

Ariston  
Beko

Bosch  
Euromaid  
Fisher & Paykel  
Gorenje  
Haier

### CONTENTS

The following items are included in the kit.

- 1 x Multi-directional deflector
- 1 x gasket seal – positions between dryer & deflector
- 2 x self-locking hose clamps
- 1 x Flexible ducting, expandable to 2m
- 1 x Auto-closing louver vent
