

Anti-flood Inlet Hose - 1.5m

Peace of mind with anti-flood technology

ULX105

DESCRIPTION

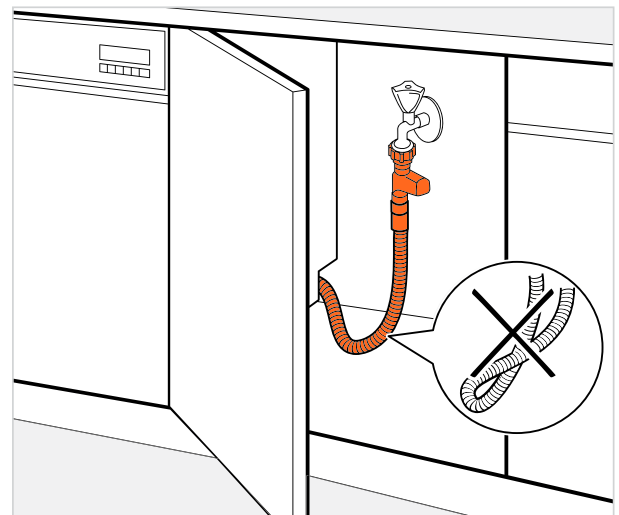

To safeguard your home, the anti-flood inlet hose stops water instantly at the tap if the hose bursts or is leaking. The hose features a small indicator light, which is green when the hose is intact and turns red if a leakage occurs. Suitable for washing machines, dishwashers and top load washers which don't come standard with flood protection.

The hose is a convenient 1.5m in length.

Available at leading electrical retailers

INSTALL
